Amund Erdal assists Norwegian and international clients with acquisitions and investments, project development and corporate and regulatory matters, focusing mainly on renewables, infrastructure, including investments in battery, hydrogen and circular economy projects, and green technologies. Amund has extensive experience with acquisitions, investments, and restructurings, as well as the development of renewable projects and negotiation of PPA structures.

Amund is ranked by Chambers & Partners and Legal 500, and is also ranked as one of the ten leading lawyers in the renewable energy sector in the Norwegian Financial Daily's (Norwegian: Finansavisen) annual peer review.

"We highly recommend partner Amund Erdal. A combination of deep knowledge and a calm overview makes him an excellent lawyer and project leader in all phases of our renewables projects, from the development of the project to M&A processes."

Legal 500, 2023

"Amund Berthelsen Erdal is very responsive, knows the business well and provides solid legal work."
